

CALL FOR PAPERS

ICAGGO 2021
Mar 25-26, 2021
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGGO 2021 : International Conference on Animal Genetics and Genetic Operations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Genetics and Genetic Operations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal genetics
Advanced animal genetics
Animal cloning and genetic operations
Animal immunogenetics
Animal molecular genetics
Animal functional genetics
Animal genetic diversity
Animal genetic characterization

Animal gene expression and control
Animal genetics for animal treatment
Gene and protein levels of animals
Mapping of animal gene, traits and QTLs
Methods for detecting red cell antigens
Methods for detecting variants of animal proteins
Molecular genetics and animal genetics
