

# CALL FOR PAPERS

**ICCCCM 2021**  
**Mar 25-26, 2021**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCCM 2021 : International Conference on Climate and Climate Change Monitoring is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Climate and Climate Change Monitoring. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climate change monitoring  
Monitoring of climate and climate change  
Analysis of trends in greenhouse gas emissions  
Greenhouse gas monitoring systems  
Global environmental change, disasters and security  
Monitoring and evaluation for climate change adaptation

National monitoring, reporting and evaluation of climate change adaptation  
Essential climate variables  
Global observing system  
Global telecommunication system  
Global data processing system
