

CALL FOR PAPERS

ICCCCM 2021
Mar 25-26, 2021
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCCM 2021 : International Conference on Climate and Climate Change Monitoring is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Climate and Climate Change Monitoring. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climate change monitoring
Monitoring of climate and climate change
Analysis of trends in greenhouse gas emissions
Greenhouse gas monitoring systems
Global environmental change, disasters and security
Monitoring and evaluation for climate change adaptation

National monitoring, reporting and evaluation of climate change adaptation
Essential climate variables
Global observing system
Global telecommunication system
Global data processing system
