

CALL FOR PAPERS

ICCESIP 2021
Mar 25-26, 2021
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCESIP 2021 : International Conference on Communication Engineering, Signal and Image Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Communication Engineering, Signal and Image Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital Information Processing	User Interfaces, Visualization and Modeling
Information and data management	Speech Recognition, Analysis and Synthesis
Watermarking and Data Compression	Cloud Computing Security
E-Technology	Internet Modeling
E-Government	Natural Language Processing
E-Learning	Information Ethics
Signal Processing, Pattern Recognition and Applications	Information Content Security
Forensics, Recognition Technologies and Applications	Cryptography and Data Protection
Data Mining	Web Services Architecture, Modeling and Design
Computational Intelligence	Semantic Web, Ontologies
Biometrics Technologies	Image Processing
Bioinformatics and Biomedical Imaging	Expert Systems
Brain-Computer Interfacing and Human-Computer Interfacing
