

CALL FOR PAPERS

ICCISPMC 2021
Mar 25-26, 2021
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCISPMC 2021 : International Conference on Computational Intelligence, Signal Processing and Wireless Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Intelligence, Signal Processing and Wireless Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational Intelligence
Artificial Immune Systems
Autonomy-Oriented Computing
Artificial Neural Systems
Bayesian Learning
Biological Computing
Data Mining Cryptanalysis
DNA Computing
Evolutionary Programming
Evolutionary Algorithms
Image Understanding
Intelligent Systems

Knowledge Discovery
Learning Algorithms
Machine Learning
Multi-Agent Systems
Multi-Objective EA
Neural Networks
Particle Swarm Optimization
Probabilistic Reasoning
Reinforcement Learning
Supervised Learning
Swarm Intelligence
Probabilistic Learning
