

# CALL FOR PAPERS

**ICCRAC 2021**  
**Mar 25-26, 2021**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRAC 2021 : International Conference on Cultural Robots and Artificial Culture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cultural Robots and Artificial Culture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cultural robotics  
Robotics and cultural heritage  
Robots in culture  
The cultural influence of robots  
Cultural acceptance of robots  
Robot-generated culture  
Human-robot interaction  
Cultural and artistic robotic systems  
Robotic partner technologies

Robotic improvisation and collaboration  
Cultural acceptance of robotic agents  
Impact of culture on robotic design and vice versa  
Cognitive models for cultural robots  
Artificial intelligence focused on creativity  
HRI studies on cultural robots  
Robots and entertainment  
Exploratory research into defining cultural robotics
