

# CALL FOR PAPERS

**ICCSRM 2021**  
**Mar 25-26, 2021**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSRM 2021 : International Conference on Computer Science, Robotics and Mechatronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Science, Robotics and Mechatronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

## Computer Science

Formal methods for analysis and design  
Software architectures  
Middleware infrastructures  
Model-driven engineering  
Component-based engineering  
Software product line engineering  
Data, ontology, and knowledge engineering  
Autonomic computing  
Natural language understanding  
Service oriented computing  
Cloud computing

Semantic computing  
Multimedia computing  
Internet of Things  
Virtual reality  
Computer security  
Robotics  
RAMS abilities of robotic systems  
Hardware modeling and abstraction  
Resource awareness  
Sensor fusion, integration  
Place recognition, localization
