

# CALL FOR PAPERS

**ICDECTSTA 2021**  
**Mar 25-26, 2021**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDECTSTA 2021 : International Conference on Digital Enhanced Cordless Telecommunications and Security Threat Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Enhanced Cordless Telecommunications and Security Threat Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital enhanced cordless  
telecommunications  
Security of digital enhanced  
cordless telecommunication  
Digital enhanced cordless  
telecommunications features and  
standards  
International activities  
Multiple operators  
DECT market figures  
Applications  
DECT 6.0  
VoIP/IP-DECT  
DECT ULE  
Standards history  
Technical features  
Technical properties

Security  
DECT for data networks  
Radio links  
XDECT R  
Batteries  
Health and safety  
The DECT standard  
DECT security architecture  
Security threats  
Security threat analysis by ETSI  
Security analysis of the  
authentication algorithm DSAA  
Structure DSAA  
Security analysis of DSAA
