

CALL FOR PAPERS

ICEEPE 2021
Mar 25-26, 2021
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEPE 2021 : International Conference on Environment, Energy and Petrochemical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environment, Energy and Petrochemical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Petrochemical
Petroleum and petrochemical
engineering
Fossil technologies
Geomechanics and rock physics
Geology and geochemistry
Reservoir characterization
Reservoir fluids
Reservoir geophysics
Oil and gas exploration
Energy management and environmental
issues
Well testing
Offshore technology
Hydrocarbons recovery mechanisms

Oil and gas production
Enhanced oil recovery
Oil and gas processing, storage and
transportation
Pipelines and tankers
LNG transportation
Petroleum safety operations
International and national
transportation
Downstream technologies
Petrochemical processes
Plant performance and optimization
Chemicals production
Refining technologies and plant
inspection
Petrochemical technologies and
products
