

# CALL FOR PAPERS

**ICESEB 2021**  
**Mar 25-26, 2021**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESEB 2021 : International Conference on Emergent Systems and Emergent Behavior is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emergent Systems and Emergent Behavior. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Emergence	World Wide Web and the Internet
Emergent systems	Architecture and cities
Self-organization	Computer AI
Analysis and simulation of emergent systems	Language
Strong and weak emergence	Emergent change processes
Objective or subjective quality	Emergenesis
Emergent properties and processes	Emergent algorithm
Emergent structures in nature	Emergent evolution
Emergent structures in humanity	Emergent gameplay
Spontaneous order	Emergent organization
Economics
