

CALL FOR PAPERS

ICIN 2021
Mar 25-26, 2021
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIN 2021 : International Conference on Information Networking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information Networking. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ad-hoc and sensor networks
5G/B4G cellular systems and heterogeneous networks
Cloud computing and networks
Cognitive radio, cooperative communication and networking
Content distribution network (CDN)
Contents/Information centric networking (CCN/ICN)
Cross-layer design and optimization
Cyber-physical system (CPS)
Delay/Disruption tolerant network (DTN)
Device-to-device communications
Distributed database and data mining
Energy-efficient protocols, green networks, and smart grid
Future Internet and future networks

Internet and web-based database systems and applications
Internet of things and machine-to-machine communications
Multimedia/database systems and applications
Networked computing systems and devices
Network convergence technology
Network performance analysis/measurement and evaluation
Network security, trust and privacy
Network simulation and modeling
Network survivability and reliability
Network Science
Network traffic management
Optical networks
Operating systems and middleware support for networking
