

CALL FOR PAPERS

ICPDS 2021
Mar 25-26, 2021
Madrid, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPDS 2021 : International Conference on Parallel and Distributed Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Parallel and Distributed Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Parallel and Distributed
Architectures and Systems
Parallel and Distributed
Applications and Algorithms
Distributed OS, Databases, and
Resource Management
Multi-core and Multithreaded
Architectures
Thermal Management and Power-Aware
Computing
Reliable and Fault-Tolerant
Computing
Grid, Peer-to-Peer, and Cluster
Computing
Web-based Computing and Services

Wireless and Mobile Computing
Ad Hoc and Sensor Networks
Communication Networks and
Protocols
Interconnection Networks and I/O
Real-Time and Multimedia Systems
Security and Privacy
Performance Modeling, Tools, and
Evaluation
