

# CALL FOR PAPERS

**ICPEAM 2021**  
**Mar 25-26, 2021**  
**Madrid, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPEAM 2021 : International Conference on Process Engineering and Advanced Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Process Engineering and Advanced Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Material Development  
Alternative and Renewable Energy  
Bioprocess and Biotechnology  
Environmental Technology  
Green and Sustainable Technology  
Particle Technology  
Process Dynamics and Control  
Process Intensification

Process Optimization  
Process Modeling and Simulation  
Process Safety  
Process System Engineering  
Reaction Engineering and Kinetics  
Reactor Technology  
Separation Processes  
Thermodynamics
