

CALL FOR PAPERS

ICBCN 2021
Mar 11-12, 2021
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBCN 2021 : International Conference on Broadband Communications and Networking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Broadband Communications and Networking. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Communications and broadband
networking
Optical communications and
networking
Wireless communications and
networking
Multimedia networking
Signal processing for
communications
Networking algorithms and
performance evaluation
Wireless sensor networks
Communication and information
theory
Network security
Mobile networks and services
Networking theory
Neural networks applications
Web engineering

QoS management
Software architectures and design
Distribution and parallelism
Mobile and ubiquitous computing
Cognitive radio networks
Internet applications
Protocols and algorithms
Coding theory
3G and 4G mobile communication
services
Communication systems and networks
Data warehousing, ontologies and
databases
Distributed sensor networks
Computer supported cooperative
work
