

# CALL FOR PAPERS

**ICBEA 2021**  
**Mar 11-12, 2021**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEA 2021 : International Conference on Biodiesel Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biodiesel Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biodiesel engineering  
Biodiesel technologies and their applications  
Biodiesel as alternative fuel  
Renewable energy resource  
Recycling and reduced waste  
Reduced emissions  
Improved quality control  
Effective burning  
Biodiesel productions  
Biodiesel vegetable and animal fats  
From *Jatropha curcas*  
Ultrasonic reactor method

Lipase-catalyzed method  
Biodiesel feedstock  
Advanced and cellulosic ethanol  
Feedstock development  
Emission of gases  
Biological conversion approaches  
Best practices in biomass supply chains  
The role of pilot-scale production  
Advanced biofuels  
Second generation biofuels  
Third generation biofuels
