

CALL FOR PAPERS

ICCCEH 2021
Mar 11-12, 2021
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCEH 2021 : International Conference on Climate Change and Environmental Hazards is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Climate Change and Environmental Hazards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental hazards and human health
Environmental health risk assessment
Natural hazards and disaster management
Environmental health and biological hazards
Environmental health and chemical hazards
Environmental health and physical hazards
Environmental health and mechanical hazards

Environmental health and psychological hazards
Safety engineering
Biomedical engineering
Environmental health policies
Environmental health and applications
Environmental health and global concerns
Environmental health ethics and laws
