

CALL FOR PAPERS

ICCCPMHM 2021
Mar 11-12, 2021
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCPMHM 2021 : International Conference on Copper Chemistry, Pyrometallurgical Method and Hydrometallurgical Method is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Copper Chemistry, Pyrometallurgical Method and Hydrometallurgical Method. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Copper chemistry
Biological and inorganic copper chemistry
Bioinorganic chemistry of copper
Occurrence and extraction of copper
Pyrometallurgical method and hydrometallurgical method
Mining, milling, smelting and refining
Properties of copper
Uses of copper and its compounds
Copper compounds
Copper halides
Copper oxides
Copper toxicity and chemistry in the environment

Oxidation of copper
Reactions of copper
Reactions of hexaaquacopper ions with hydroxide ions
Reactions of hexaaquacopper ions with ammonia solution
The reaction of hexaaquacopper ions with carbonate ions
The reaction of hexaaquacopper ions with iodide ions
Melting and casting
Melting technology
Fire refining
Electrorefining
Collection and processing of recycled copper
