

CALL FOR PAPERS

ICCNN 2021
Mar 11-12, 2021
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCNN 2021 : International Conference on Convolutional Neural Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Convolutional Neural Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Convolutional neural networks
Advanced convolutional neural networks
Advances in convolutional neural networks

Applications of convolutional neural networks
Convolutional neural networks for image processing
Deep parametric continuous convolutional neural networks
