

CALL FOR PAPERS

ICECPC 2021
Mar 11-12, 2021
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECPC 2021 : International Conference on Environmental Chemistry and Pollution Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Chemistry and Pollution Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pollution control chemistry
Green chemistry
Environmental chemistry
Monitoring of environmental chemicals
Environmental pollution control microbiology
Analytical chemistry in water pollution control
Chemical analysis of water and waste
Chemical technology and pollution control
Control of pollution in the chemical industry
Environmental pollution

Air pollution prevention and control
Air, water pollution and treatment
Marine pollution
Industrial pollution
Waste management and treatment
Pollution control technologies and devices
Pollution and health effects
Human impact on the environment
Environmental sustainability and development
