

# CALL FOR PAPERS

**ICNMMSA 2021**  
**Mar 11-12, 2021**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMMSA 2021 : International Conference on Network Monitoring, Measurement, Simulation and Analysis is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Network Monitoring, Measurement, Simulation and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Network measurement and monitoring techniques

Network simulation techniques

Measurement and evaluation

techniques of energy efficient communication systems

Performance evaluation and design of cognitive network architectures

Performance evaluation and integration in smart grids

communications and demand

Response techniques

Network traffic characterization and measurement

Machine-learning and artificial intelligence for Traffic/QoE management

Integrated multitenant 5G platforms
