

CALL FOR PAPERS

ICSAIPPS 2021
Mar 11-12, 2021
Miami, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSAIPPS 2021 : International Conference on Sustainable Agriculture and Innovative Plant Protection Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Agriculture and Innovative Plant Protection Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organic agriculture
Sustainability of crop production, processing and consumption
Agricultural biotechnology
Field crops
Land and water management
Technology and sustainable agriculture best practices
Private and public sectors collaboration in agriculture
technology development
Climate change impacts, mitigation and adaptation
Renewable energy sources and sustainable agriculture
Resiliency of agriculture crops with climate change
Fruits and citrus
Greenhouses and horticulture
Agricultural buildings

Agricultural machinery
Fertilisers and chemicals
Irrigation and water management
Plants, seeds and propagation materials
Plant protection and fertilization
Post harvest treatment
Nanotechnologies in agriculture
Food price volatility and market instability
Animal conservation and sustainability
Livestock, dairy farming and small ruminants
Veterinary and feeding system
Poultry farming
Dairy farming methods and technologies
