

CALL FOR PAPERS

ICAC 2021
Mar 29-30, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAC 2021 : International Conference on Advances in Cyclostratigraphy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Cyclostratigraphy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyclostratigraphy
Oscillating systems
The milankovitch theory
Methods of analysis
The relation between time and sediment accumulation
Stratification and stratification cycles
Rock magnetic cyclostratigraphy

High-frequency cyclostratigraphy
Time-series analysis and cyclostratigraphy
Cyclostratigraphy and the astronomical time scale
Cyclostratigraphy and chronology
Cyclic sediments
Milankovitch cycles
Stratigraphy
