

CALL FOR PAPERS

ICAHMT 2021
Mar 29-30, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAHMT 2021 : International Conference on Advances in Hazardous Materials Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Hazardous Materials Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hazardous materials
Characterization of the harmful effects of chemicals and materials
Measurement and monitoring of hazardous materials
Transport and fate of hazardous materials in environment
Risk assessment and management
Physico-chemical and separation processes for hazardous materials removal

Thermal processes for hazardous materials removal
Advanced oxidation process for hazardous materials removal
Biological processes for hazardous materials removal
Safer and cleaner technologies
Material and energy resource recovery from hazardous waste
Micropollutants and endocrine disrupting chemicals
