

# CALL FOR PAPERS

**ICAMIM 2021**  
**Mar 29-30, 2021**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMIM 2021 : International Conference on Advanced Materials and Intelligent Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Materials and Intelligent Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent manufacturing and intelligent materials  
Intelligent materials and applications  
Shape material alloys  
Piezo electric substances  
Quantum tunneling composites  
Electro luminescent substances  
Photo chromic substances  
Self-healing materials  
Smart polymeric materials  
Intelligent manufacturing  
Information and decision systems  
Intelligent databases and information retrieval

Data analysis  
Prediction and model identification  
Prediction and time series analysis  
Data fusion and mining  
System identification  
Multi-level measurement and metrics  
Control system  
Manufacturing systems and technologies  
Manufacturing and service systems  
Flexible automation and intelligent manufacturing  
Modeling and simulation  
Digital machining technology
