

CALL FOR PAPERS

ICMFT 2021
Mar 29-30, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMFT 2021 : International Conference on Microbial and Fermentation Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial and Fermentation Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Enzyme and microbial technology
New approaches to enzyme and microbial technology
Microbial engineering for production of chemicals and pharmaceuticals
Recent advances in biochemical techniques
Microbial physiology, metabolism and gene expression

Biocatalysts, synthetic biology and biotechnology
Biotechnological production of new bioactive molecules, biomaterials, biopharmaceuticals, and biofuels
New imaging techniques and biosensors
New biotechnological approaches in genomics, proteomics and metabolomics
Metabolic Engineering, biomolecular engineering and Nanobiotechnology
