

CALL FOR PAPERS

ICA 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICA 2021 : International Conference on Aeroacoustics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aeroacoustics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic Source
Aeroacoustic Computations
Aeroacoustics Investigation
Airframe Noise
Computational Aeroacoustics
Fan Interaction Noise
Flow Asymmetry
Flow Structures
Galerkin Method
Grid Method
Identification of Aircraft Noise at Landing

Measurements of the Wavenumber
Reducing High Frequency Sound
Rocket Engines Noise
Source of Combustion Noise
Spectral Analysis of Airframe Noise
Subsonic Flows
Supersonic Cavity Flows
Supersonic Jet Noise
Using Plasma Actuators
Wall Pressure Modes in Subsonic Cavity Flows
Wind Tunnel Walls on Cavity Acoustic Resonances
