

CALL FOR PAPERS

ICACMT 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACMT 2021 : International Conference on Advanced Carbon Materials and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Carbon Materials and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Carbon materials
Sustainable carbon materials
Carbon materials and chemicals
Physicochemical properties of carbon materials
Surface chemistry of carbon materials
Molecular simulations applied to adsorption on and reaction with carbon
Carbon as catalyst support
Preparation of carbon-supported metal catalysts
Carbon as catalyst

Catalytic properties of nitrogen-containing carbons
Carbon-anchored metal complex catalysts
Carbon nanotubes and nanofibers in catalysis
Carbon gels in catalysis
Carbon monoliths in catalysis
Carbon materials as supports for fuel cell electrocatalysts
Carbon materials in photocatalysis
Carbon-based sensors
Carbon-supported catalysts for the chemical industry
