

CALL FOR PAPERS

ICAMC 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMC 2021 : International Conference on Advances in Materials Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Materials Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials chemistry
Solid-state chemistry
Metals
Semiconductors
Polymeric materials
Nanomaterials
Materials characterization
Artificial photosynthesis
Batteries
Carbon dioxide conversion
Catalysis
Fuel cells
Gas capture/separation/storage

Green materials
Hydrogen generation
Hydrogen storage
Photocatalysis
Photovoltaics
Self-cleaning materials
Self-healing materials
Sensors
Supercapacitors
Sustainable materials
Thermoelectrics
Water splitting
Water treatment
