

CALL FOR PAPERS

ICAQC 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAQC 2021 : International Conference on Advanced Quantum Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Quantum Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum communications
Information technology
RF technology, components and control
Coding theory
Communications and information theory
Photonic communications technology
Interconnection and complexity theory
Error correction

RF based programming and algorithms
Modeling and simulation
Systems architecture
Optimized algorithms and applications
Experimental results
Control instrumentation
Signal processing
