

# CALL FOR PAPERS

**ICCDM 2021**  
**Mar 22-23, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCDM 2021 : International Conference on Computational Discovery in Mathematics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Discovery in Mathematics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational discovery in  
mathematics  
Computationally assisted  
mathematical discovery  
Mathematical knowledge and  
discoveries  
Experimental mathematics  
Visualization  
Mathematical explorations

Meta-mathematical knowledge  
Discovery in pure mathematics  
Computer algebra systems  
Automated theorem proving  
Mathematical databases
