

CALL FOR PAPERS

ICCEPE 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEPE 2021 : International Conference on Computer Engineering and Power Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Engineering and Power Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Circuits, Devices and Systems
Communications and Networking
Computer and Software Engineering
Signal Theory and Signal Processing
Optoelectronics and Photonics
Power Electronics and Energy
Systems
Electronics Engineering
3D Semiconductor Device Technology
Advanced Electromagnetics
Component Technology of MEMS
Computer Engineering
Electronics System-Level Based
Design

Adaptive Signal Processing
Electrical Engineering
Software Specification
Analysis of Power Quality and
System Stability
Analog Circuits and Digital
Circuits
Battery Management System
Electromagnetic and Photonics
Software Assurance
Assembly and Packaging
Antenna and Propagation
Circuits and Electronics
Electric Energy Processing
