

CALL FOR PAPERS

ICEAHS 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAHS 2021 : International Conference on Engineering Applications for Healthcare Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Applications for Healthcare Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering for healthcare systems	
Healthcare system management, improvement and reform	E-health
Quality, cost, efficiency, effectiveness	M-health
Operations research and systems engineering	Telemedicine
Lean, six sigma, total quality management	Wireless technology
Human factors	Data mining and big data
High reliability organization	Information security
Resilience engineering	Healthcare facilities
Rural health	Healthcare infrastructure
Healthcare information systems	Healthcare energy systems
Electronic health record	Healthcare sustainability and green design
	Environmental health and safety
