

CALL FOR PAPERS

ICEEE 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEE 2021 : International Conference on Energy Engineering and Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Engineering and Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable energy engineering
Renewable and sustainable energy
Energy and environment
Optimization methods applied to renewable and sustainable energy
Energy, environment and sustainable development
Sustainable energy development
Energy utilization
Turbomachinery and transformation of energy systems
Environmental and socio-economic issues
Sustainable energy utilization
Transformation of energy systems
Renewable energy systems
Renewable energy technology

Sustainable power generation and distribution
Solar power
Biomass energy
Hydroelectricity
Wind energy
Hydrogen energy
Tidal and wave energy
Geothermal power
Energy conservation
Bioenergy conversion methods
Bioenergy applications
Green energy and economy
