

CALL FOR PAPERS

ICFMR 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMR 2021 : International Conference on Ferrous Metal Recycling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ferrous Metal Recycling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Materials science and engineering
- Metal recycling
- Benefits of recycling
- Metal recycling industry
- Global metals recycling
- Ferrous metal recycling
- Recycling hazardous and non-hazardous metals
- Metal waste management
- Metal recovery
- Recyclable materials
- Processing
- Resources
- Hazards

- Economic role
- Scrap and scrapyards
- Savings in energy
- Savings in raw materials used
- Ferrous metals
- Precious metals
- Non ferrous metals
- Superabrasives
- Metallurgy
- Metallic elements and their intermetallic compounds
- Technology of metals
- Metalworking processes
- Metal forming
