

# CALL FOR PAPERS

**ICFPLDQB 2021**  
**Mar 22-23, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPLDQB 2021 : International Conference on Future Prospects for Laser-Driven Quantum Beams is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Future Prospects for Laser-Driven Quantum Beams. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Laser-driven quantum beams
- High power rep-rated lasers
- Current laser-acceleration capability
- Beamline optics

- Post-acceleration schemes
- Unique or innovative beamline architecture or design
- Novel beamline instrumentation for diagnostics and control
- Future prospects for integrated laser-driven particle accelerator systems
