

CALL FOR PAPERS

ICFTPP 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTPP 2021 : International Conference on Fusion Technology and Plasma Physics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fusion Technology and Plasma Physics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fundamental Concepts of Nuclear Engineering
Fusion energy and plasma physics
Radioisotopes
Naval nuclear propulsion
Fusion Technology
Nuclear Materials
Nuclear Systems Simulation
Thermal Hydraulics and Reactor Safety
Engineering Thermodynamics
Radiation Biophysics and Dosimetry
Environmental Aspects of Nuclear Engineering

Nuclear-waste management
Advanced Reactors
Nuclear Safety and Security
Nuclear Fuel and Materials
Reactor Physics and Transport Theory
Innovative Nuclear Power Plant Design and New Technology Application
Nuclear-waste management
Nuclear materials
Radiation measurements
Medical and health physics
