

CALL FOR PAPERS

ICHES 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHES 2021 : International Conference on Human Evolution and Speciation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human Evolution and Speciation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary biology
Evolution
Evolutionary processes
Speciation
Speciation process
Gene transposition
General principles
Geographic speciation
Peripatric speciation
Parapatric speciation
Allopatric speciation

Sympatric speciation
Ecological and parallel speciation
Speciation via polyploidization
Hybrid speciation
Artificial speciation
Isolated biological populations
Animal husbandry, agriculture and
laboratory experiments
Hawthorn fly
Three-spined sticklebacks
Rates of speciation
Punctuated evolution
