

CALL FOR PAPERS

ICHESGT 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHESGT 2021 : International Conference on Human Evolution, Speciation and Gene Transposition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human Evolution, Speciation and Gene Transposition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary biology
Evolution
Evolutionary processes
Speciation
Gene transposition
Geographic speciation
Peripatric speciation
Parapatric speciation
Allopatric speciation
Sympatric speciation

Ecological and parallel speciation
Speciation via polyploidization
Hybrid speciation
Artificial speciation
Isolated biological populations
Animal husbandry, agriculture and
laboratory experiments
Hawthorn fly
Three-spined sticklebacks
Rates of speciation
Punctuated evolution
