

CALL FOR PAPERS

ICMAAI 2021
Mar 22-23, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMAAI 2021 : International Conference on Manufacturing Applications of Artificial Intelligence is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Manufacturing Applications of Artificial Intelligence. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Applications of AI	Machine Learning and Data Mining
Artificial Intelligence and Intelligent Systems	Model-Based Reasoning
Autonomous Agents and Multi-agent Systems	Natural Language Processing
Case-Based Reasoning	Planning and Scheduling
Cognitive Modelling and Cognitive Architectures	Robotics, Perception, Vision and Sensing
Computational Creativity	Social Intelligence and Socio-Cognitive Systems
Constraints, Satisfiability, and Search	Uncertainty in AI
Engineering Applications of Artificial Intelligence	Web and Knowledge-based Information Systems
Information Retrieval and Natural Language Processing	Multidisciplinary Topics
Knowledge Representation, Reasoning, and Logic
