

# CALL FOR PAPERS

**ICMEMP 2021**  
**Mar 22-23, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEMP 2021 : International Conference on Molecules in Engineering and Mechanical Properties is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecules in Engineering and Mechanical Properties. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular engineering  
Molecular interactions  
Composites  
Mechanical properties  
Smart materials and devices

Functional materials  
Electrical properties  
Engineering applications  
Biomedical applications  
Synthetic biology
