

# CALL FOR PAPERS

**ICNGET 2021**  
**Mar 22-23, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNGET 2021 : International Conference on Natural Gas Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Natural Gas Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Natural gas science and engineering  
Natural gas industry  
Natural gas exploration  
Natural gas production  
Natural gas processing  
Natural gas transmission  
Origin and accumulation of natural gas  
Natural gas geochemistry  
Gas-reservoir engineering  
Well logging, testing and evaluation  
Mathematical modelling

Enhanced gas recovery  
Thermodynamics and phase behavior  
Gas-reservoir modelling and simulation  
Natural gas production engineering  
Primary and enhanced production from unconventional gas resources  
Coalbed methane, tight gas, shale gas, and hydrate production  
Formation evaluation, exploration methods, multiphase flow and flow assurance issues  
Novel processing techniques  
Raw gas transmission methods  
Gas processing/LNG technologies  
Sales gas transmission and storage
