

# CALL FOR PAPERS

**ICCIIP 2021**  
**Mar 04-05, 2021**  
**Rio de Janeiro, Brazil**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIIP 2021 : International Conference on Computational Intelligence in Image Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Intelligence in Image Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Computational intelligence in image processing
- Neural networks
- Fuzzy logic
- Rough sets
- Metaheuristics
- Expert systems
- Coding and compression
- Sampling and interpolation
- Quantization and halftoning
- Quality assessment
- Filtering and enhancement

- Morphology
- Edge detection and segmentation
- Feature extraction
- Indexing and retrieval
- Evolutionary algorithms
- Simulated annealing
- Tabu search
- Ant colony optimization
- Particle swarm optimization
- Harmony search
- Bee colony optimization
