

CALL FOR PAPERS

ICTDME 2021
Mar 04-05, 2021
Rio de Janeiro, Brazil

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTDME 2021 : International Conference on Textile Dyeing Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Textile Dyeing Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Textile dyeing
Textile dyeing process
Textile manufacturing
Dyeing techniques
Process of adding color to textile products
Etymology
History
Methods
Direct application
Yarn dyeing
History of garment dyeing
Complex garment dyeing

Special solution containing dyes
Particular chemical material
Dye molecules
Temperature and time controlling
Different classes of dyes
Natural and man-made
Animals or plants
Artificial dyes
Disperse dyes
Broader range of colors
Different types of fiber
Different stages of the textile production process
