

CALL FOR PAPERS

ICBDM 2021
Mar 04-05, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBDM 2021 : International Conference on Bacterial Diseases and Microbiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bacterial Diseases and Microbiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bacterial pathogenesis
Plant bacteriology
Veterinary bacteriology
Bacterial identification
Bacterial diagnosis
Molecular pathology
Clinical pathology
Veterinary pathology
Advancements in diagnostic pathology
Urinary tract infections
Hospital-acquired pneumonia
Airborne transmission

Vector borne transmission
Control and treatment
Chemical biology
Chemical microbiology
Microbial metabolism
Microbial genetics
Microbial assay
Infectious diseases
Microbial diagnosis
Molecular applications
Treatment and prevention
Pathology of infections
