

# CALL FOR PAPERS

**ICGDI 2021**  
**Mar 04-05, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGDI 2021 : International Conference on Geospatial Data Infrastructure is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geospatial Data Infrastructure. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Spatial Data Infrastructures (SDI)  
SDI development and assessment  
Commercial and open source software  
Coordinate frames, cadastral data, and land management  
Data harmonisation  
Cooperation between stake holders  
Policy, strategy, and legal aspects  
Assessment of current spatial data infrastructures  
Existing alternative approaches or models for planning  
Financing and implementing SDI in different countries  
Case studies, data harmonization efforts, and standards efforts

Implications of various approaches of spatial data infrastructures  
New technologies, programs and research initiatives  
Possible future technological scenarios  
SDI application models and sustainable development  
Natural resources management  
Land administration  
Disaster management support  
Economic/business activities  
Regional and urban management  
NSDI, INSPIRE, WebGIS, geoportals, mapping, SDI, and GSDI
