

# CALL FOR PAPERS

**ICHSOP 2021**  
**Mar 04-05, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHSOP 2021 : International Conference on Healthcare Systems Optimization and Performance is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Healthcare Systems Optimization and Performance. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare systems optimization  
Clinical and healthcare systems optimization  
Performance optimization  
Service optimization with patient satisfaction in healthcare systems  
Optimization of the healthcare value chain  
Optimization of resources  
Patient flow optimization  
Optimization methods in healthcare delivery  
Risk adjustment optimization and dynamic healthcare systems

Modeling and optimization of health care processes  
Healthcare systems process improvement  
Healthcare system scheduling  
Healthcare delivery systems  
Healthcare management  
Healthcare technology management  
Mobile healthcare systems  
Simulation optimization for an emergency departments  
Optimization of routine healthcare data
