

CALL FOR PAPERS

ICARM 2021
Mar 29-30, 2021
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICARM 2021 : International Conference on Aerospace Robotics and Mechatronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aerospace Robotics and Mechatronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aerospace robotics
Automation and control
Space robotics
Space manipulators
Flying robots
Quadrotors
Satellite formation flying

Mobile robots
Robotic space exploration
Autonomous robots
Unmanned aerial vehicle
Sensor fusion
Signal processing
