

# CALL FOR PAPERS

**ICCCBS 2021**  
**Mar 29-30, 2021**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCBS 2021 : International Conference on Computational Cognitive and Behavioral Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Cognitive and Behavioral Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational cognitive science  
Computational cognitive and behavioral science  
Theory and practice of computation  
Intelligent systems  
Interactive computer systems  
Computer game development  
Embodied conversational agents  
Computational intelligence  
Information retrieval and text processing  
Mobile application development  
Signal processing  
Physiological measurement  
Robotic systems

Haptic enabled systems  
Image processing  
The acquisition of language and ontology  
Affect and emotion  
Cognition and consciousness  
Cognitive or evolutionary theory  
Autonomous robotics  
Biomedical science  
Cognitive linguistics  
Cognitive neuroscience  
Computational intelligence  
Developmental and evolutionary robotics
