

CALL FOR PAPERS

ICCMS 2021
Mar 29-30, 2021
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMS 2021 : International Conference on Computational Mathematics and Statistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Mathematics and Statistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical sciences
Statistics
Mathematical statistics
Descriptive statistics
Inferential statistics
Statistical computing
Computational statistics
Statistics, estimators and pivotal quantities
Probability and statistics
Null hypothesis and alternative hypothesis
Error
Interval estimation
Significance

Linear algebra
Mathematical methods
Computational methods
Scientific observations
Computational science
Analysis
Applied mathematics
Combinatorics
Computational mathematics
Complex numbers
University maths
Complex analysis
