

CALL FOR PAPERS

ICDEMSG 2021
Mar 29-30, 2021
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDEMSG 2021 : International Conference on Distributed Energy Management for Smart Grids is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Distributed Energy Management for Smart Grids. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Distributed Energy Management
Distributed Energy Resource
Management
Distributed Control and Management
of Renewable Electric Energy
Resources
Demand Response and Distributed
Generation Management
Hierarchical Control of Microgrids

Energy Storage Systems for Energy
Management
Low Carbon Energy and Energy
Efficiency
Distributed Energy Management in
Smart Thermal Grids
Distributed Energy Management for
Vehicle-to-Grid Networks
Energy Management Strategies for
Distributed Energy Resources
